ELECTRONIC HEALTH INFORMATION EXCHANGE

As previously noted, healthcare providers and health plans are granted the ability to use and disclose your protected health information without your written consent for purposes related to treatment, payment, and healthcare operations. While this is still true, advances in technology have led to the creation of an Electronic Health Information Exchange (HIE). The HIE streamlines and creates a more secure method for the exchanges of health information. Previously your health information was directly exchanged via mail, facsimile, and hand delivery. These methods were time consuming, costly, and not secure. The HIE allows health providers and health plans to submit single requests to obtain electronic records for a specific patient to other HIE participants through the Health Information Organization (HIO). Kansas Law grants you the right to determine whether providers and health plans can access your health information through an HIO. You have the choice to participate or have your health information restricted. If you choose to participate and permit authorized individuals to access your electronic health information through an HIO for treatment, payment, or healthcare operations, you are not required to take any action. However, if you choose to restrict access to all your electronic health information through any HIO operating in Kansas you must complete and submit the required form to KHIE. You can resend the restriction at any time by submitting another request to KHIE. To further protect your health information, all requests are subject to verification procedures which take upwards of several business days to complete. Failure to provide all requested information will create additional delays. Your restriction does have the following exception: Access by properly authorized individuals as needed to report specific information as required by law. Examples include suspected incidents of abuse and reporting of certain communicable diseases. Your restriction will only become effective once the specified documentation is received. The form is available at www.KanHIT.org. This restriction is an all or nothing option. You are unable to provide access to some health information while restricting other health information. Once your request to restrict information is processed, your health record cannot be accessed electronically through HIOs operating in Kansas except for mandatory reporting purposes.

If you have any questions pertaining to electronic health information exchange or HIOs, please visit www.KanHIT.org for additional information.

PATIENT RIGHTS

Access: You have the right to inspect and receive a copy of your health information either in paper or electronic format, with limited exceptions. The request must be made in writing on the form provided by the Practice. To obtain the form, contact the HIPAA Privacy Officer for Mirage Imaging. You will be charged for each copy of your health information at the current fee set by the State of Kansas.

Disclosure Accounting: You have the right to receive a list of instances in which we disclosed your health information for purposes other than treatment, payment, healthcare operations and certain other activities for the last 6 years. If you request this accounting more than once in a 12-month period, we may charge you a reasonable, cost-based fee for responding to these additional requests.

Restriction: You have the right to request that we place additional restrictions on our use or disclosure of your health information. We are not required to agree to these additional restrictions, but if we do, we will abide by our agreement (except in an emergency). If you pay for a service or health care item out-of-pocket, in full, you can ask us not to share that information for the purpose of payment or our operations with your health insurer. We will say "yes" unless a law requires us to share that information.

Alternative Communication: You have the right to request that we communicate with you about your health information by alternative means or to alternative locations. (You must make your request in writing.) Your request must specify the alternative means or location and provide satisfactory explanation how payments will be handled under the alternative means or location you request. We will say "yes" to all reasonable requests.

Amendment: You have the right to request that we amend your health information. (Your request must be in writing, must explain why the information should be amended, and submitted to Mirage Imaging HIPAA Privacy Officer.) We may deny your request under certain circumstances.

Electronic Notice: If you receive this Notice on our Web site or by electronic mail (e-mail), you are entitled to receive this Notice in written form.

Appointment: You may give someone medical power of attorney allowing them to exercise your rights and make choices about your PHI.
